# Senior Portraits

Listed below are session fees and ALa Carte pricing. The digital package on the reverse side has been popular. It allows you to not only own your images, but grants you a release so that you can print your images. Manipulate them as you see fit. Use them on Facebook, your web site, your cell phone, anywhere you would like. Once you have a release letter, you can legally do almost anything you like with the images.

Other packages are available and are listed in the blue studio guide. The other packages are popular for those that do not wish to purchase the rights or images. A finished high quality print for display is a powerful image indeed.

No matter which you select, you are always guaranteed the high quality workmanship, professionalism and customer service you expect from our studio.
